# Environmental Policy

ASW provides building and property maintenance services throughout South Wales and is committed to continuing improvement of its Management System and Services.

We have developed and implemented an Environmental Management System, designed to meet the requirements of ISO 14001 :2004 and we are committed to:

- A greener and cleaner Environment for all
- Prevention of pollution in all areas of our operation
- A programme of continual improvement in everything we do
- Keeping ourselves aware of and compliant with, all current and future legislation
- Reduced use of natural resources
- Minimise waste and maximise recycling / reuse
- Develop best methodology for capturing Carbon Management data for future targets
- Environmental targets and objectives are set for our Business that are checked by regular management and supervisory actions together with independent internal and third party audits

Our employees will receive the appropriate levels of training and awareness to ensure that due emphasis is placed on the protection of the Environment and site care/cleanliness.

Recycling and re-use of materials will be carried out where possible and where not, due care will be exercised in respect of waste disposal in accordance with current guidelines and legislation.

This Policy is communicated and made available to all Company personnel, supply chain, members of the public and other interested third parties. These responsibilities are clearly communicated by the Directors and are defined within the Management System and Service Delivery Plans.

The Management System is continuously reviewed for effectiveness and suitability by the Directors.
